

Volunteers are needed for Rockport's Harvest Festival Recycle & Compost Program

Festival Date: October 14, 2017

This year's Harvest Fest, as in years past, is intent on minimizing the amount of trash we generate. To that end, we are hoping to enlist a volunteer corps to help make this possible.

Volunteers will:

- help the public sort their recyclables, compostables and trash into designated containers (training provided);
- switch out recycling and trash bags, compost containers once full
- collect recyclables and compostables from designated bins;
- get a free T-shirt for a minimum of two hours work
- measure results
- have fun and enjoy the festival while reducing waste and slowing climate change! :)

Volunteers are needed starting at nine am for set up until six pm for consolidation. We are looking for volunteers *ideally* able to work three hour shifts. You can work alone or in a team or we can put you in a team, so you won't be alone!

Please forward, post, and share widely! This opportunity is open to groups, students, clubs, scout troops, teams, families, individuals, adults, students...

We could not run this valuable program without volunteers! Together, we make a difference!
