

## **Philosophy**

The library is an area of the school where students have the opportunity to be effective users of information. Information for research and personal enrichment is available in the library through books, newspapers, magazines, and electronic formats. Students are encouraged to be active learners in the library. The library staff strives to offer an atmosphere of mutual respect and courtesy. The library endeavors to be helpful in assisting students and others in the learning community. The library is a place for quiet serious research, independent study or reading.
